Work Experience

Technical Product Manager, AI Applications | webAI   03/2024 - Present
- Led the end-to-end product lifecycle for a no-code machine learning platform, driving ideation, prototyping, development, and post-launch optimization to democratize AI for non-technical users.
- Collaborated with engineering, design, and marketing teams to build a unified product roadmap, delivering 20+ high-impact features on schedule that increased user adoption
- Spearheaded the company's debut iOS app focused on privacy-centric, on-device LLM inference. Collaborating with ML engineers and Swift developers, we architected a local-first framework using Core ML and SwiftUI, enabling offline LLM workflows while reducing cloud costs by 40%

Software Project Manager | Apptronik   06/2023 - 02/2024
- Work with external stakeholders to prioritize product features and capabilities, create a shared brain across larger teams to empower independent decision-making, and outline what success looks like for the team
- Create product roadmaps, feature epics, user stories, and project plans based on established product vision, feedback from customers, and analysis of collected product data

Associate Product Manager, Computer Vision | Flash   07/2022 - 04/2023
- Manage bottlenecks, provide escalation management, anticipate and make trade-offs, and maximize business benefit while building innovative customer experiences for the Flash computer vision program
- Work collaboratively with key internal stakeholders including Analytics, Design, Engineering, Sales, Operations, and Customer Success teams to develop accretive value features for SaaS products

Project Manager I & II, Strategic Projects | Flash   09/2020 - 07/2022
- Collaborate with diverse customer groups to generate innovative ideas for new features, ensuring alignment with the organization's strategic objectives and product roadmap
- Lead end-to-end ownership of multiple B2B2C software development initiatives using Agile principles, ensuring on-time delivery, meeting budgetary constraints, and exceeding client expectations

Education

Master of Business Administration, Louisiana State University Shreveport   03/2021 - 08/2022
B.S. in Computer Science, Oregon State University   06/2017 - 12/2019
B.S. in Mechanical Engineering, James Madison University   01/2012 - 05/2015

Certifications

Cognitive Project Management for AI (CPMAI)+ PLUS from Project Management Institute   06/2025
Certified Scrum Product Owner (CSPO) from Scrum Alliance   06/2022
Project Management Professional (PMP) from Project Management Institute   04/2022
